

**Nautilus argonauta nodosa 176mm (7 inches)**  
washed in on flinders island 2016.fabulous flawless  
Huge specimen.

this is a lovely huge paper nautilus with no holes or  
chips or any flaws what so ever that i can see,one of  
the best big ones iv'e ever seen, getting harder and  
harder to get in any condition,but this size in gem is  
a 1 in 1,000 so dont miss out on this one.
