DESCRIPTION

This auction is for an Excellent Hawaiian Granulated Frog Shell--*Bursa granularis*--Roding, 1798.

This excellent shell measures approximately 39.2mm. by digital caliper and is in F+ to Gem condition with excellent sculpting and beautiful color and pattern. It is about average size for the species.

This great specimen was found on the North Shore of Oahu in 6 to 10 feet of water in rubble. A great Hawaiian shell and a wonderful addition to any collection.
