

*Cribarula Gaskoinii*

N Shore, Oahu, HI. 23.6mm, Gem

Notes: This *Cypraea Cribarula Gaskoinii* was self collected in 25ft night dive just outside a cave on a large boulder on red sponge. This HUGE *Gaskoinii* was just found and cleaned out, to many calloused spots, FAT as seen in the 1st picture, CRISP top pattern, straight mantel line
