

**CYPRAEA STERCORARIA - NICE GABON  
SPECIMEN 55.5 mm F+++/GEM**

Quality: F+++/GEM I see no important flaws. Very near perfect. This specimen is super quality for stercoraria.

Collected: Collected by local diver off the coast of Gabon, 1982. (Ex Coll J&J Demartini)

Comments: A nice specimen better than most you see on the tables at Shell Shows. very selected.
