

*stercoraria rattus*

Stunning broad deltoid overcalloused specimen.  
Ocelot dorsal pattern, chesnut broad margin,  
hyperglossy base. Minor flaw on top of hump.

**SUPER SHELL**

Top selection from the collection of  
a French wellknown malacologist living for 25 years in  
Gabon and Congo.

65,5 x 52,5 mm ! GEM-  
ex Coll. Hattenberger
