

**Aspella productua-18.66mm.F+++
Hawaii Murex Shell-Hawaiian Specimen
Seashell-HTF**

6 \$, Jan 13

DESCRIPTION

This auction is for an Excellent Projecting Murex Shell--*Aspella producta*--Pease, 1851.

This beautiful, harder to find shell measures approximately 18.66mm by digital caliper and is in F+++ condition with cool sculpting, great pattern and excellent markings. This is about

average size for the species and this great specimen was found on the South Shore of Oahu in 85 feet of water under small rubble. A great Hawaiian shell and a wonderful addition to any collection.
