

**Lambis chiragra arthritica**

*Roding, 1798*

**Super black aperture! Unique! 244 mm**

**Sri Lanca. Giant. Fantastic shell! Amazing black aperture.**

**Light color top. Several attachments on the dorsum, doesn't detract from it's overall beauty.**

**The white spots on the shell are from the camera.**

**76 \$, Oct 2017**
