

**CONUS ACHATINUS - VERY NICE KOH KAEW YAI,
THAILAND 49.6 mm**

Quality: F+++/GEM I see no important flaws. A few soft lines.

Collected: Collected by Gypsy diver at around 20 to 25 meters in sand and rubble off Koh Kaew Yai Island, near Phuket Island, Thailand, October 2017.

Comments: Not common. Different from the Koh Racha Yai specimens.
