

**CONUS CROCATUS CROCATUS - NICE TAWI-TAWI**  
**51.3 mm F+++**

Quality: F+++ Because of the more prominent growth line on the dorsum.

Collected: Collected by local diver at 20 meters off Tawi-Tawi, Bongao Island, Philippines, 1998. (Ex Coll J&J Demartini)

Comments: Still a very nice specimen with a natural lip and a low price.
