

**Conus leviteni-Hawaiian Arrow Cone-Tucker, Tenorio & Chaney, 2011**

**SIZE & GRADE: 18.95mm.(0.75") F+++ Endemic**

**LOCATION: Windward Shore, Oahu in 4 feet of water in sandy rubble**

**COMMENTS: an excellent micro tented cone shell with outstanding color and sculpture that is about average size for this species. This tenting pattern is really tough to find.**
