

**C.nicobaricum 53+mm.Large Hawaii Nicobar Triton
Shell-Hawaiian Specimen Seashell**

8 \$, Jan 13

This auction is for an excellent Hawaiian Nicobar Triton Shell-*Cymatium nicobaricum*--Roding, 1798. This excellent shell measures approximately 53.7mm. by digital caliper and is in F+++ condition with a fine lip and great color with beautiful sculpting. It is quite a bit larger than average size for the species. This wonderful specimen was found on the North Shore of Oahu.

A beautiful shell and a fantastic addition to any collection.
