

**ADUSTA ADUSTA - SUPER DARK KOH RACHA YAI  
31.5 mm F+++/GEM - A0763**

Quality: F+++/GEM We bought this shell fresh with the animal inside but after cleaning it had some duller spots on the base and the margin. Not because of acid because the animal was still very fresh.

Collected: Koh Racha Yai Island at 40 meters, Thailand.

Comments: Super dark shell, almost black.
