

Superb Golden Cowrie Sea Shell - *Cypraea Aurantium* - 101.6mm

From a Hawaii collection - Brilliant color - NO RESERVE

- Measures 4" = 101.6 mm
- *Cypraea aurantium* commonly known as the golden cowrie
- Intense color, deep orange
- Acquired by us from a massive collection in Honolulu
- Once used as status symbols among Fiji rulers, the golden cowrie is prized by shell collectors
- Extremely hard to photograph due to glare issues - much better in person
