

**Umbilia hesitata**

**Origin:** N.S.W. Aust.

**Author:** Iredale 1916.

**Size:** 95.8mm.

**Grade:** F2

" *Undecided Cowry* " A great size. I reduced the grade for a few sand grains left of dorsum, they don't detract from the overall beauty of the shell. Ends intact. A thick heavy mature piece.

30 €, Jul 2017
