

**Cypraea Hesitata Hesitata 86.5mm F+++ Amazing
Multi Dark Colors**

Trawled north of gabo island bass strait n.s.w.

A Very nice and impressive attractive dark shell with dark spotting all over , this is a very dark shell and lovely pattern, this will not disappoint and a lot darker in the hand than computer monitor shows.the color contrast is awesome on this shell.couple of tiny micro natural imperfections, no chips
