

**CYPRAEA LAMARCKII SHARONI - WHITE LAMARCKII  
FORM MADAGASCAR 43.4 mm F+++ -**

Quality: F+++ Because of some typical inclusion in the top layer but super quality for sharoni.

Collected: Collected by locals on the coast of Salary, Madagascar, 2013.

Comments: Other than some rare exceptions, all sharoni are a little bit overcast and have some typical inclusions in the top layer.
