

CYPRAEA MARGINALIS - SET OF 2 SHELLS SOMALIA
23/27 mm

Quality: F+++/GEM I see no important flaws.

Collected: Collected at 80 to 100 meters in Ras Hafun, Somalia, 1990/95. (Impossible to get now because of pirate activity)

Comments: Hard to tell whether they are live taken or not but in any case the shells are glossy and have no drill holes.
