

**CYPRAEA MAURITIANA - VERY DARK ADULT
DWARF THAILAND 47.7 mm**

Quality: GEM I see no important flaws. Bright white spots are light reflection.

Collected: Collected by gypsy diver at 40 to 60 meters at Koh Racha Yai Island, S from Phuket, Thailand, January 2016.

Comments: Very dark adult dwarf size specimen. Super selected for a top quality. Very hard to get this outstanding condition in mauritiana.
