

**CYPRAEA MAURITIANA - HARD TO GET MARQUESAS ISLANDS 73.2 mm**

Quality: F+++/GEM I see no important flaws. Very minor growth imperfections and inclusions.

Collected: Collected by local diver at 10 to 15 meters off Taiohae, Nuku Hiva, Marquesas Islands, 2004. (Ex Coll J&J Demartini)

Comments: More difficult to get from this locality.
