

Cypraea mus donmoorei

Petuch, E.J., 1979

MONSTER! 68.1 mm !!!!! F++/Gem

Venezuela. Monster sized. Slightly rostrate specimen. Cream/white color background with attractive grayish/beige pattern, dark brown, beige, black central spots and marks.

Cream/white, beige margins and base with grayish/beige spots and marks, yellow/orange basal blotch and brown teeth.

Has few sand grains doesn't detract from it's overall beauty.
