

***Cypraea mus donmoorei* Petuch, E.J., 1979**

**Super dark! Very heavy and wide! 58.9 mm. F++/Gem
Venezuela. Big sized. This is my darkest specimen. Very dark with
a fantastically clear pattern. Fantastic ripples pattern! Extra wide,
hump, almost globular one. Hard to get *C.mus donmoorei* a
similar size and condition.**
