

Name: *Cypraea testudinaria* (Linnaeus, 1758).

Location: Bantayan, Philippines.

Grade: F++.

Size: 83.45mm. (By Digital Caliper).

Notes: VERY NICE MATURED DWARF. HAS ABSENCE OF A DORSAL PATTERN. MOST LIKELY THE MANTLE WAS DAMAGED BY A PREDATOR EARLIER IN LIFE. VERY CALLOUSED. VERY RARE TO OBTAIN SUCH A UNIQUE PIECE AS THIS.
