

***Fusinus rutilus* Nicolay and Berthelot, 1996**

Very rare endemic species, seldom seen and hardly offered. Only one available!

Colorful (the Latin name means: bright golden red) and giant, since it is reported to hardly exceed the 200 mm

Siphonal channel damaged from the fishermen for cleaning the animal, otherwise fantastic condition for this species

Trawled off Port Gentil, Gabon, 2016

210 mm F++/ F+++

303 \$, Nov 2016
