

***Opeatostoma pseudodon* (Burrow, 1815)**

Origin: Panama.

Author: Burrow 1815

Size: 52.2mm, 52.2mm.

Grade: F3

" *Thorn Latirus* " Two specimens close to the same size. Range is Mexico to Peru. This is one of the "black & white species" that some collectors collect and nothing else. Unique form with the thorn extruding from the end of the outer lip.
