

*Barycypraea suryai* Beets, 1942 Thanks for your time, on reading this. Caught onto this fossil, a few days ago..I could have sold a few in the fast, just a few, as I could not have had too many of these, labeled as, *Barycypraea orangensis*', also discribed by, Beets in 1942

Size: 36.21mm

Specimen collected at **Nylindung**

**41 \$, Aug 2019**
