

**CHICOREUS PALMAROSAE - SUPER NICE & RARE  
SOMALIA 72.6 mm**

Quality: F+++/GEM I see no important flaws.

Collected: Collected by local fishermen at 5 to 10 meters at the coast between Degmada Cadale and Alifuuto Nature Reserve, Somalia, 2004.

Comments: A very beautiful specimen. Always rather small size. Difficult to impossible to get today.
