

**CHICOREUS PALMAROSEA - SUPER TOP QUALITY
SRI LANKA 94.6 mm**

Quality: F+++/GEM I see no important flaws.

Collected: Collected by local diver at 5 to 15 meters off Tangalle, Sri Lanka, 2015. (WITH OPERCULUM)

Comments: Awesome quality with the original operculum. I was able to clean very well and I selected only the very high top quality
