

***Paziella Flexopteron poppei* Houart, 1993**

Extremely rare and so hard to get now that even plastic facsimile have been created to satisfy collector request!

This is a fantastic big sized live collected specimen, in excellent condition, collected about 7 years ago at 450 m depth off Balut Island, Philippines

47 mm w/op F++++

0 bills at 650 \$, Nov 2015
