

**Morula uva-16.06mm.Hawaii Grape Drupe Shell-
Hawaiian Specimen Seashell**

**an excellent Hawaiian Grape Drupe Shell--Morula uva --
Roding, 1798.**

**This outstanding shell measures
approximately 16.06mm. by digital caliper and is in
F+++ condition with a very nice, sub-adult lip with deep
purple aperture, outstanding black & white color with
excellent markings and unique sculpting and
design. It is larger than average size for the
species and was found on the Leeward Shore of Oahu in 4
feet of water in rubble.**
