

**Nassa sarta-34mm.F++Hawaii Frankolin Rock Shell-
Hawaiian Specimen Seashell**

**an excellent Hawaiian Frankolin Rock Shell----Nassa
serta--Bruguiere, 1789.**

**This excellent shell measures approximately 34mm. by
digital caliper and is in F++ condition with a nice tip ,
an excellent lip and great color and pattern. This
specimen, which has one natural repair is about average
size for the species. It was found on the South Shore of
Oahu in 4 feet of water in rubble.**
