

This is a *Pecten langfordi* that is 22.8mm (maximum dimension). Sunrise shell.

- Beautiful super dark red color and great pattern on the outside and with a dark and glossy inside.

- This is a whole, natural pair. One side is always the "yellow" and the other the "red".

- These hard to get deep water shells are highly prized both as specimen shells and for jewelry.

- The whole shells are always hard to get. High quality shell.

Found on the island of Oahu, Hawaii. Endemic Hawaiian shell. Collection data provided with the shell. White spots on the shell are from the camera. Shipping costs can be combined on multiple wins.
