

SWIFTOPECTEN SWIFTII - EXCEPTIONAL DARK ORANGE JAPAN 87.4 mm F+++/GEM

Quality: F+++/GEM I see a small irregularity in the pattern on the front of the shell.

Collected: Trawled by Japanese fishermen at around 180 meters off Okujiri Island, Japan, 2016.

Comments: The best of the best !!! Very exceptional dark orange. There was only one! Almost perfect and super selected.
