

**Tonna hawaiiensis-88.16mm. F++ Rare Endemic
Hawaiian**

**an excellent Hawaiian Tun Shell--Tonna hawaiiensis--Jay,
1839.**

**This outstanding, quite rare, endemic, deep water
Tun shell measures approximately 88.16mm. by digital
caliper and is in F++ condition with a very nice,
trimmed lip, excellent protoconch, wonderful color with a
good black line along the lip which is missing on many
specimens and excellent markings with unique sculpting
and design. It is smaller than average size for the
species and was found, crabbed on the North Shore of
Oahu in 115 feet of water in rubble.**
