

**LITHOPOMA PHOEBIUM - VERY NICE
GUADELOUPE 69.4 mm F+++/GEM -**

Quality: F+++/GEM I see no big flaws. Some tips missing. With operculum.

Collected: Collected by diver at a depth of 3 meters, Saint François, Guadeloupe, 2016. (w/O)

Comments: Very nice quality. Hard to get good ones and really hard to clean.
