

Gemmula monilifera-16.4mm.Hawaii Necklace Turrid Shell-Hawaiian Specimen Shell

an excellent Hawaiian Necklace Turrid Shell----Gemmula monilifera--Pease, 1861.

This excellent shell measures approximately 16.40mm. by digital caliper and is in F++ condition with a nice, lightly tipped protoconch, a good lip and great color and pattern. This specimen is smaller than average size for the species. It was found on the Leeward Shore of Oahu in 75 feet of water in open sand.
