

**CYMBIOLA AULICA - SUPER NICE MALAMAWI
ISLAND 120.7 mm F+++/GEM -**

Quality: F+++/GEM I see no important flaws. Only very minor growth imperfections. Almost GEM.

Collected: Collected by local diver at 15 to 20 meters off Malamawi Island, Basilan, Philippines, 2002.

Comments: Very selected specimen with a dark pink/orange color and a great pattern.
