

**Voluta ebraea - FANTASTIC SPECIMEN W/O BRAZIL
151.9 mm F+++/GEM -**

Quality: F+++/GEM I see no important flaws. Spire and apex intact, but all of them have a fine growth line somewhere.

Collected: In lobster nets at 50 meters, off Natal, Rio Grande Do Norte, Brazil, 2014.

Comments: We have selected only a few of the best.
