

**VOLUTA MUSICA LAEVIGATA - PERFECT CANAL  
VENEZUELA 78.0 mm GEM - Q1667**

Quality: GEM I see no flaws. Natural lip. They all have a fine line somewhere, mostly near the lip, but this specimen really deserves to be called Gem.

Collected: Trawled at 20 meters off Isla de Margarita, South of La Isleta, Venezuela, 2016.

75 \$, May 2017
